Reveal-Overview

Reveal provides the essential auditing and over-sight capabilities that legal, human resources, and auditing personnel need within Novell GroupWise. Reveal ensures that organizations can conduct confidential email investigation and reduce the liability that organizations can experience while maintaining the integrity of the messaging system.

Benefits for Executives

- Reduce Liability
- Meet Legal Obligations
- Protect Intellectual Property
- Maintain E-mail Oversight
- Protection from Information Hawks
- Enforce E-mail Policy
- Quickly Search Confidential E-mails

New with Reveal 1.5! Integration with Reload from GWAVA

With the new Reload integration, customers can audit archived data, search through backups, access deleted email, and apply all the other tools of Reveal to their GroupWise backups and archives.

Integration with Advansys Archive-To-Go

Integration with Archive-To-Go allows Legal, HR and other departments to quickly export audited email.

Rights Management

Reveal 1.5 adds rights management that easily allows administrators to specify which accounts a Reveal user is allowed to audit.

Integration with Redline from GWAVA

All of the alerting, monitoring and reporting that Redline provides for GroupWise can also be used to track how Reveal is used within your organization.
